ANNA ONLY BOUGHT PEACE

By Yielding to Him Her Entire Income
—The Divorce Case of the De
Castellanes Begun in Court

It is the intention of the countess to remain in France after the divorce and rear her children there.

BOTH SIDES CLAIM VICTORY.

Guild's Plurality is Fixed at 30,000 to
Moran's 20,000 to 30,000.

Boston, Oct. 31.—Within a week of the election, the managers of the Republican state campaign are so confident of Gov. Guild's re-election that yesterday they declared with great positiveness his plurality would be at least 30,000, and perhaps 50,000.

It is understood that Senator Lodge hopes for a much larger plurality than the 30,000 or 35,000 normal Republican preponderance, since anything less than a "jolt" would be likely to bring about, in the next campaign, "the same thing over again."

Granville S. MacFarland of Mr. Moran's bureau declined to give out figures yesterday. He said he was confident his candidate would win, but that there were so many elements to be considered that he did not care to offer figures, being content with the fact that the situation gave assurance of a satisfactory result.

The Moran workers are as confident as the Republicans that their candidate will win, and their estimates of the plurality range from 20,000 to 30,000, though many of them hold the belief that a tidal wave is coming which will land Mr. Moran in the State House with even a larger plurality. They do not claim that they have a complete canvass on which to base their estimate, but assert that they have sufficient evidence from various sections to furnish an accurate gauge on the drift of sentiment.

The Barre railroad has extended an invitation to the legislature to visit the Barre granite quarries at some date which shall be most convenient to the members. On motion of Mr. Jackson of Barre City the House moved a vote of thanks and that a committee of three be appointed to arrange the time for such a trip.
